

Certificate on Environmental Safety

Product: CEBO Hybrid-Gel Pro

Manufacturer: Cebo Holland BV
Westerduinweg 1
1976 BV Ijmuiden
Netherlands

Phone: +31-255-546262

Email: info@cebo.com

The chemical and physical analysis of the product CEBO Hybrid-Gel Pro shows that the product has no negative environmental effects, according to today's level of scientific knowledge, on the soil and water it comes in contact with during its use, if its concentration in the applied mixture is up to 5 kg/m³ (0,5%) and no other harmful substances are present. The product CEBO Hybrid-Gel Pro is classified as WGK 1 (slightly hazardous to water) according to AwSV. Application mixtures with up to 3 % of the product can therefore be classified as non-hazardous to water.

The assessment was based on the following regulations and assessment standards:

- ✓ Federal Soil Protection Ordinance (BBodSchV): 2021-07
- ✓ German threshold values for groundwater according to the Regional Water Authorities LAWA – January 2017
- ✓ WHC classification: classification of substances hazardous to waters based on the ordinance on facilities for handling substances that are hazardous to water (AwSV)

This certificate is valid until 31-03-2030.
